

Technology Forum for Future Asia 2013 in Sweden *Lecture in Europe regarding the Usage of Renewable Energy in Asia*

Panel discussions with advanced country of Sweden about the
International Collaboration of Academia and Industry

Co-sponsored by

Technology Forum of Future Asia (TeFFA)

Solar Energy Society of India (SESI)

Future Innovation Engineering Society (FIE)

Under the auspices of

The Embassy of Japan in Sweden

Wind Energy Department, Uppsala University, Campus Gotland

Convergent Media Laboratory, Uppsala University, Campus Gotland

JSPS, Stockholm

An urgent issue today is how the world will be able to secure an adequate supply of energy in the future. To this issue is joined the Japanese considerable concern on the subject after the nuclear accident of March 11, 2011. Technology Forum of Future Asia (TeFFA), Asia Pacific Sunbelt Development Association (APS) and Future Innovation Engineering Society (FIE) hereby propose the holding of the international forum on the theme: "Lecture in Europe regarding the Usage of Renewable Energy in Asia - Panel discussions with advanced country Sweden about the International Collaboration of Academia and Industry ". The Forum takes place on September 2, 2013.

The forum provides you with opportunity to discuss with developed country of Sweden of the international collaboration of Academia and Industry about technology exchange between Japan and Asia in the field of energy as well as how Japanese universities, university spin-off ventures, and industries should assume their respective positions. We hereby invite you to participate in the forum, and to support our cause.

TIME and DATE:

September 2, 2013 (Monday)

13:30 - 16:50 Forum (doors open at 13:00)

17:00 - 17:30 Campus tour

Location

Conference Room, E22 Near Café at Library

Uppsala University, Campus Gotland, Sweden

PROGRAM/ SPEAKERS

- 13:30 - 13:40 Introduction
■ Opening
Professor Masayuki Nakajima, Uppsala University
- 13:40 - 13:55 Keynote Speech
■ New Technology of Alternative Energy
Dr. Michael Nobel, Former Visiting Professor,
Tokyo Institute of Technology
- 13:55 - 15:15 Proposals from Academia
■ Wind Energy Research, Uppsala University, Campus Gotland
Assoc. Professor Stefan Ivanell , Uppsala University
- Alternative Energy Trends, and Academia-Industry-Government
Collaborative Activities at Tokyo Institute of Technology
Dr. Toshihiro Hirai, Former Professor, Tokyo Institute of Technology
- Computational tool development in Gotland for Renewable Energy
Problems
Assoc. Professor Bahri, Uppsala University
- Solar Energy Measurement at Hokuto-city in Japan
Former Professor Dr. Seiichi Naitou, Tokyo Institute of Technology
- 15:15--15:35 Recess
- 15:35 - 16:30
- Asia International Collaboration towards Asia Energy Network
(AEN) for Sunbelt Framework
Former Professor Kyoji Kunitomo, Tokyo Institute of Technology
- Using Serious Games for Education in Sustainable Development
Professor Steven Bachelder , Uppsala University
- Alternative Energy Strategy in India
Chairman, Bergen Group, Mr.Rajinder Kumar Kaura
Vice President, Solar Energy Society of India (SESI)
- 16:30 – 16:45 Summary
■ Future Work
Professor Masayuki Nakajima, Uppsala University
-
- 17:00 - 17:30 Campus tour
■ Convergent Media Laboratory
