

25<sup>th</sup> July 2013

Dear Sir,

**First meeting for “India-Japan EV (Electrical Vehicle) Study Society”**  
**~ Joint Study by India and Japan to expect new business expansion in India ~**

By: TeFFA (Technology Forum for Future Asia)

Date: 22<sup>nd</sup> August 2013 (Thursday) 14:00--18:00 (Registration 13:30, Party 18:20 )

Venue: Japan University of Economics, Grad school No.10 Building 1F 246 Hole (Shibuya)

“India-Japan EV (Electrical vehicle) Study Society” will have collaborative relation with some institutes which make activity for “Solution study” in Japan and overseas. This society present the opportunity to create new study projects through the technical exchange between India and Japan researchers, private company members, government members and NPO members using the accumulated know-haw and experience of this society members. (In near future, target area will expand to Asian countries)

We will have several times meetings (workshop) a year to exchange the technical information with “The trend and activity of the EV industries”, “Latest trend and activity of EV technology” and so on. And also, working group members will discuss the plan of new EV project to produce the EV prototype which has the new technology such as “Bi-direction non-contact charge and discharge” and to make some experiments on the actual road.

**[Program]**

Chair: Kazuhiko Akiyama (THK)

14:00~14:10 (1) About “India-Japan EV (Electrical viehicle) Study Sciety”

(Hiroshi Katoh, Chair of TeFFA)

14:10~15:20 (2) Outlook of global EV market and technology (Hirokazu Hirano, KAIT Professor)

15:20~15:35 Break
